

## MANY LIVES LOST IN A GREAT FIRE

Explosion and Flames In  
Tarrant's Drug House  
In New York.

## PROPERTY LOSS GREAT

From Fifty to One Hundred  
People Supposed to Have  
Been Killed.

## PANIC STRIKES THE CROWDS

New York, Oct. 29.—Lives numbering between fifty and one hundred, according to eye-witnesses and others conversant with the facts, were lost at noon today in fire and explosions in Tarrant's drug house on Greenwich and Murray streets, and the property loss will probably be enormous for at this writing, two o'clock, the flames are spreading either way.

### Three Explosions.

Soon after the fire started in the drug house three explosions followed quickly, following which the whole front of the building fell out into the street.

Sixty-five girls and many men are employed in Tarrant's, which was a seven story block.

Most of the men were out to lunch but nearly all of the girls remained in the place.

People in the Franklin building, a block away, say they saw numberless bodies shoot up into the air when the big explosion occurred.

On the right of the Tarrant building was the Home restaurant, which was filled with dinner when the first explosion occurred. A wild rush took place there but it is not known whether all escaped as the fire licked up the restaurant in a few minutes.

### Wild Rush Toop Place.

Twenty girls were at work at Schwartz & Co.'s and it is believed that some were lost. When the building fell out it carried with it the structure of the elevated railway, blocking traffic to Ninth avenue.

It is reported that men of Engine Co. No. 27 were in the building when the explosions occurred and all were lost.

Three thousand persons gathered soon after the fire started and when the explosion came many were injured by glass and trampled on in the panic.

The Hartman building was also destroyed and the fire switched around to Warren street.

It is said that ten girls escaped from Tarrant's. They say there are many dead in the ruins. The force of the explosion sent the roof two hundred feet into the air.

### 75 Men Are Missing.

It is reported that seventy-five men at work in the coffee house of Ephams, Smith and Weedman are missing.

The building was opposite the drug house and the explosion wrecked it. The men had no chance to escape and there is little chance that they are alive.

A report just received says that fifteen men of fire truck No. 10 are missing.

At two thirty the two city blocks bounded by Washington, Greenwich, Chambers and Warren streets were practically in ruins.

When the wall fell which blocked in the front of the Irving bank the teller had \$80,000 in cash on the table in front of him. There was no time to transfer the money to a safe place so a detail of police is now guarding the gold.

So far no cause is known for the explosions.

### EXPECTS TO BEAT GOPHERS.

### Wisconsin Football Team Hopeful

After Game With Grinnell  
Madison, Wis., Oct. 29.—Wisconsin football stock has gone up since her sweeping victory over Grinnell Saturday by a score nineteen points bigger than that made by Minnesota against the Iowans, and the Badgers now have higher hopes of being able to down the Gophers.

They realize, however, that they have an entirely different proposition in front of them, and that considerable improvement is necessary in the team work, interference and defensive play before they are in shape to meet the strong Minneapolis aggregation.

The team will probably be given secret practice all this week until Thursday, when they start in order to

get a day's rest at Minneapolis before the game. None of the new plays in which King has been coaching his men were tried Saturday, and Minnesota will not be given an opportunity to get a line on them.

### WEATHER GOOD FOR TOBACCO.

Wisconsin Crop in Fine Condition and Buyers are Numerous.

The weather conditions continue most favorable for the curing of the tobacco crop. Most of it is already in condition to be taken down for stripping, and one or two parties have already stripped some. After one fairly heavy frost the bulk of the crop will be taken down from the poles and stripped, as most of it is sold for delivery as soon as it is ready. Buying continues good. When one buyer leaves the field another seems to be ready to take his place. If the weather continues favorable a large part of the crop will be delivered before the Christmas holidays, which is unusually early.

## PROF. MAX MUELLER DIES IN ENGLAND

FAMOUS GERMAN SCHOLAR  
ENDS HIS LIFE WORK.

Fifty Years a Teacher At Oxford—  
Went to England Fifty-Four Years  
Ago With a Reputation For His  
Translations of Sanskrit and Student  
of Oriental Languages.

Oxford, Oct. 29.—Prof. Max Muller corpus professor of comparative philology at Oxford university, died at 1 o'clock yesterday.

Frederick K. Maximilian Muller, generally called "Max Muller," takes the rank as one of the most famous scholars in the country. He was born at Dessau, Germany, in 1823, and was educated in Berlin, London and Paris. In 1846 he went to England, and four years later settled at Oxford, where he became a professor of modern languages in the university, and was appointed professor of modern philology in 1868.

### Specialty of Sanskrit.

In 1856 he formed a connection with the famous Bodleian library, and later

was placed at the head of the oriental department of that institution. Though widely and deeply acquainted with modern philology, the illustrious scholar made Sanskrit and all oriental lore his specialty. He edited and translated the "Hitopadesa," the "Rig Veda" and a number of eastern works, besides compiling a "Handbook for the Study of Sanskrit," a "History of Ancient Sanskrit Literature" and other similar works, all characterized by the most learned and typically German researches.

### Writes of Eastern Peoples.

Prof. Muller, however, did not give all his time to philology. He studied and wrote of eastern peoples themselves, their religion, their customs and habits, as well as their languages. His work on the origin and growth of religion as illustrated by the religions of India, is a classic in its line, and his lectures on the science of religion have also taken a high place in contemporary thought. Perhaps the most widely read of his books is "Chips from a German Workshop," which, better suited for the lay reader than his heavier efforts, sheds a light on the life and character of the great teacher.

Prof. Muller found time also to contribute with considerable voluminousness to many of the more serious philosophical and philosophical periodicals of the day, and his alert mind and ready pen will be greatly missed in all the centers of learning in the world.

## BURGLARS KILL A PRISON KEEPER

Three Men Attempt to Leave a New  
York Prison—One Killed, One  
Injured and One Escapes.

New York, Oct. 29.—Hugh McGovern who is the keeper of the prison at the West 54th Street police station was killed early this morning by three escaping burglars, one of whom was killed, one fatally injured, while the third managed to escape.

McGovern discovered Joseph Emerson, Arthur Flanagan and George Wilson sawing the iron bars in a window on the second tier of cells on the third floor of the prison. Seeing they were detected the men shot McGovern through the heart.

Flanagan slid the rope of improvised bedding and got away. Emerson followed but when half way down the rope broke, and he was fatally hurt by the fall. Emerson jumped from a third story window and was instantly killed.

Flanagan and Emerson are negroes. The saw was brought to Flanagan in a pie by a sweetheart. All three were confined in one cell on account of the crowded condition. The bars were cut after midnight and as now appears the men were surprised as they were starting for a window of the gallery tier.

Flanagan carried an iron bar sawed from a cell and as McGovern appeared on the stairs Flanagan crushed his skull. Wilson tried to save the keeper, but Flanagan killed him with one blow and escaped. Emerson tried to follow but fell.

## FLOODS CAUSE RUIN ABOUT LA CROSSE

Heavy Rainfall Results in Overflowed  
Lowlands and Washouts and  
Delayed Railway Traffic

La Crosse, Wis., Oct. 29.—La Crosse has today been practically shut off from the rest of the world as the result of last night's severe storm. No mail has arrived during the last twenty-four hours from any direction on any road.

On the Milwaukee road much damage was done at Hokah, Minn., where a bank of earth was washed onto the track and is delaying trains. Every bridge in that part of the country is washed out. The Weber Mill Company's loss amounts to \$4,000. At Dresbach, on the Milwaukee road, a washout did much damage.

At Grand Crossing, north of here, tracks have been washed out and buildings in the lowlands flooded, families moving out in skiffs. The total loss to this city and its vicinity will amount to thousands of dollars.

At Winona the storm was the worst seen in years, and considerable damage was done. Lightning struck in a number of places. All the rail roads entering that place suffered loss on account of washouts and high water. The Northwestern and Milwaukee were the principal losers. The Northwestern had 1,000 feet of track washed out near Rockland, Wis., 1,000 feet near West Salem, Wis., and suffered slight damage between Winona and Stockton, Minn., on account of high water. All passenger trains on the river division of the Milwaukee are abandoned.

Sparta, Wis., Oct. 29.—The heavy rains of yesterday and last night raised the streams in this vicinity so as to cause much damage to bridges and other property. Many washouts along the railroads are reported. No trains are expected to arrive here before tonight.

## STRIKING MINERS BEGIN WORK TODAY

All Operators Have Granted Work-  
men's Demands and Idleness of  
150,000 Diggers Ends.

Hazleton, Pa., Oct. 29.—The 150,000 miners of the anthracite region, most of whom have been idle for nearly a month because of the strike, returned to work this morning, and with the exception of a few mines owned by individual operators, who have not yet granted the miners' terms, the great industry will be in full operation.

It is said that the few individual operators who are still holding out will within a few days tell their men that they will grant the demands of the miners.

The Lehigh and Wilkesbarre Company, operating the Audenreid, Honey-Brook and Green Mountain collieries in this district, the largest company now holding out, will, it is said, comply with the demands of the men by Nov. 1, when work will be resumed.

The struggle now closing has been remarkable in many ways. For nearly a month all the great army of workers of the region, including men from several foreign countries and Americans, have clung together with a firmness and a unity of purpose that has never before been seen in labor troubles in the anthracite region.

There has not been a break in their lines, and up to the time their modified demands were granted they were constantly adding to their strength. There has been little destitution a-

mong the idle miners, though vast sums in wages have been lost, and there has been very little violence.

## GROUND WIRES FIRE TREES.

Curious Occurrence During Heavy  
Rainstorm in Milwaukee.

Milwaukee, Wis., Oct. 29.—During a heavy rainstorm last evening seven shade trees in different parts of the city were set on fire through the electric currents being diverted and carried down the guy wires to the trees to which they were attached.

The fire department was called out to extinguish the fires, but as soon as the rain began again they would start up afresh. It was not until the electric light circuit was shut off that the fires were extinguished.

The fires were caused by the grounding of wires in some way that could not be discovered in the darkness.

## OFFERS NEW TITLE TO QUEEN VICTORIA

Premier Lyne of New South Wales,  
Suggests She Become Empress  
of the British Empire.

Sydney, S. N. W., Oct. 29.—William John Lyne, premier and treasurer of New South Wales, during the opening of a German fete here Saturday said: "The temper of the Australian people was never so affectionate toward the mother country as it is now. The war in South Africa has produced a patriotic bond which should last eternally."

"It has been suggested locally that her majesty should assume the title of Queen of Australia. To me it seems a good proposal. Indeed, I think her majesty might well be approached with a view to her assumption of the title of Empress of the British Empire, thus embracing all the colonies and dependencies."

When Victoria ascended the throne on June 20, 1837, she was proclaimed queen of great Britain and Ireland. To this was added by proclamation on Jan. 1, 1877, during the Disraeli ministry, the title of Empress of India. For this act, long known at the time as one coveted by the queen, Lord Disraeli became her favorite minister, and no premier before or since ever enjoyed her confidence to the extent that he did.

It is expected that Senator Hanna will be in Milwaukee for the big republican rally being arranged for Saturday evening.

## REPORTER GRASSIE OCCUPIES PULPIT

Tells the Congregation of Plymouth  
Church, Milwaukee, the Mis-  
sion of a Newspaper.

Milwaukee, Wis., Oct. 29.—Reporter George F. Grassie preached from the pulpit of the Plymouth Congregational church last night, but not from choice, but necessity, because his paper had assigned the task to him. In introducing him Rev. Mr. Tittsworth explained how he came to invite a reporter to occupy his pulpit, the proposition being made to a newspaper in the discussion of his sermon on the ethical side of newspaper work. It was a good sermon, but the large congregation was disappointed because it was neither sensational, slangy nor improper. It might have been written and delivered by their pastor. The reporter was expected to do something uncommon but instead told a lot of wholesome truths about the newspaper and news, and defended the money-making newspaper, for "the laborer is worthy of his hire," whether he be preacher, reporter or whatever his calling.

## MURPHY LEAGUE HAS A ROUSING RALLY

GEORGE WEST TELLS OF BENEFITS HE HAS DERIVED.

A. E. Matheson and Prof. D. D. Mayne Indulge In Interesting and Profitable Talks—League Gives Its Annual Entertainment on Tuesday, Nov. 13, At Y. M. C. A. Hall.

The Francis Murphy League held a lay meeting at three o'clock yesterday afternoon in the Y. M. C. A. building. President Fred Holden presided and there were several speakers were present. George West, a man well known here, told of the benefit he had derived after signing a Murphy pledge. He said that he had been a drinker for over forty years and until a year ago when he signed the pledge. Since that time he has been able to help a number of other drinkers to rebuild their fortunes. A. E. Matheson also gave an interesting talk. The address of the day was given by Prof. D. D. Mayne and was enjoyed very much by the members present. He said in part that the first step in stopping any habit is always the determination to stop, so many of the people would make promise after promise to stop and that was as far as they ever got. He cited one plan by which one man stopped the drinking habit. He said that the man inserted an advertisement in the paper to the effect that he would give a sum of money to anyone seeing him take a drink for a certain length of time. It is needless to say that the man did not have to pay his fine.

Mr. Mayne also gave some very good advice to the young men to be careful of their associates. If boys are kept from bad associates their temptations are very few, so he warned them to keep away from bad associates. The Murphy League has been formed since January 1, 1899 and since that time has paid out over two hundred dollars for the relief of habitual drunkards and in reforming drunkards. The League gives its annual entertainment Tuesday, November 13th in the Y. M. C. A. building.

## THE STUDENTS WILL PAY FOR THAT COW

The football players, who it is claimed were the cause of the taking off of Mrs. Orr's valuable cow, have resolved to repay her in some manner. Saturday morning the captain of the Junior team called upon Mrs. Orr and asked her at how much the cow was valued. Mrs. Orr placed the value at \$29 and the boys of the class have agreed to take up a collection out of their own pockets to repay Mrs. Orr. This act is especially commendable when the true facts of the case are known. It appears that while the team was practicing with one of the balls a few of the boys of the neighborhood used the other one to kick around. It was one of those outside boys who kicked the ball toward the cow but not hitting it. Nevertheless the cow took fright with the result of her death. But the boys of the Junior class, feeling that perhaps they might in a small way be responsible and knowing that Mrs. Orr cannot well stand the loss have come forward and offered to make good her loss. The cow was not on Mrs. Orr's land but on the ground used by the boys for practicing purposes.

## BIG SURPRISE FOR MRS. W. H. MERRITT

Mrs. W. H. Merritt had a pleasant surprise played on her Saturday evening by the First ward members of the

## CATARRH

Catarrah has become such a common disease that a person entirely free from this disgusting complaint is seldom met with. It is customary to speak of Catarrah as nothing more serious than a bad cold, a simple inflammation of the nose and throat. It is, in fact, a complicated and very dangerous disease; if not at first, it very soon becomes so.

The blood is quickly contaminated by the foul secretions, and the poison through the general circulation is carried to all parts of the system.

Salves, washes and sprays are unsatisfactory and disappointing, because they do not reach the seat of the trouble. S. S. S. cures it. It cleanses the blood of the poison and eliminates from the system all catarrhal secretions, and thus cures thoroughly and permanently the worst cases.

Mr. P. H. McAllister, of Harrodsburg, Ky., writes: "Having been a terrible sufferer from Catarrah, and being now free from it, I feel it my duty to state that Swift's Specific is the medicine. I am such a true believer in the efficacy of Swift's Specific that I can honestly and conscientiously recommend it to any one suffering from Catarrah. Have recommended it to many, and am happy to say that those whom I have induced to use it can bear me out in the statement that it will cure any case of Catarrah if taken according to directions."

SSS is the only purely vegetable blood purifier known, and the greatest of all blood medicines and tonics. If you have Catarrah don't wait until it becomes deep-seated and chronic, but begin at once the use of S. S. S., and send for our book on blood and skin diseases and write our physicians about your case.

The party broke up just before midnight.

## HORSE SHOW DRAWS SEVERAL FROM HERE

A Good Sized Delegation Left the Bower City This Morning for Chicago.

In spite of the disagreeable weather this morning, a good sized delegation from Janesville left on the early train for Chicago, to witness the horse show. This great society event will take place in the new Coliseum, and will undoubtedly be well attended, as the weather would make but little difference, the program being carried out under roof.

Careful inquiry at the local dressmaking establishments today failed to reveal of any elaborate costumes that had been ordered by the ladies of Janesville who are contemplating being present.

## PLAYED FOOT BALL SUNDAY MORNING

Two Hundred People Were At Goose Island Yesterday To See the Contest.

Sunday foot ball games are a new feature in Janesville. Fully two hundred people assembled on Goose Island, near the gas houses yesterday morning and witnessed what proved to be a hard fought contest. The game was between an eleven gathered under the supervision of Walter Flaghty, while the other team appeared on the gridiron as the Golden Eagles. After considerable delay the teams agreed that Glen Snyder should act as umpire. With hickory club in hand Mr. Snyder appeared thanking the players for the honor bestowed and warning all that he would rule as he thought best and that he would not at any time stand any "back talk." Then the game commenced.

Both halves that followed were warmly contested. The rushes and runs indulged in would have done justice to Yale or Harvard. The crowd yelled themselves hoarse. After the smoke had cleared away Referee Snyder announced the decision in favor of the Golden Eagle the score being 5 to 0.

## MODERN WOODMEN AND RESERVE FUND

Members of the Order In Janesville Are Interested—There Exists Opposition.

Modern Woodmen of Janesville are beginning to take an active interest in the question of a reserve fund for their association. There is a wide difference of opinion as to the necessity of such action, those advocating a reserve fund being confident the organization cannot long continue without it, while those opposed say such a measure would endanger the life of the association.

At the meetings which are to be held on the first and third Fridays in November the subject of establishing a national reserve fund will come up for discussion and will probably be voted on at the first meeting in December.

Five years ago a similar question was up for discussion and was voted down. This time its supporters believe it will go through. If at the meetings in December the lodge vote for the reserve fund, their delegates to the national convention, which is held in June, will carry that word and it will of course be passed by them.

## WAS A WALKAWAY FOR THE JUNIORS

The game of football Saturday afternoon at Athletic Park between the Juniors and Freshmen, proved to be a walkaway for the Juniors. While the Freshmen put up a good game fight the odds were heavy and the Juniors ran up a score of 43 to 0. The playing was at times good, Ryan making two drop kicks from the field and also making two touchdowns. The balance of the playing was done by Knox, Daly, Hutchinson and Bump. Bump kicked three yards from touchdowns. The officials were Len Mathews and Richard Griffiths.

## HUNDRED AGENTS WORK THIS TOWN

Local Well Known Life Insurance Agent Says That Janesville Is "Insured to Death."

One hundred men are now engaged in the life insurance business in Janesville. This statement was made to a Gazette representative today by a well known representative of the Metropolitan Life who now makes his headquarters in the Bower City.

This agent recently arrived from Chicago. The first few days here were spent in securing the number of men actually engaged in the life insurance business in Janesville.

"After a careful estimate," said the Metropolitan Life representative, "I place the number of life insurance men here in Janesville at one hundred. This number includes many men who are also engaged in other lines of work but who at different times take up life insurance as a side line business. As near as I can figure out there are about twenty men residing here who devote their entire time to the business. This town is simply insured to death."

He says: "After resorting to a number of so-called 'specifics' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by Smith's Pharmacy, next P. O., Kodak agents.

This but a trifle less than that for last year, but the average yield per acre is a little greater. This year it is 83 bushels as against 82 in '99, 73 in '98 and 64 in '97, the total crop in the last year being 174,000,000.

## POOR HUNTING AT KOSHKONONG

Local Sportsmen Say that the Ducks Are Scarce.

Local sportsmen who have been at Lake Koshkonong this week report poor shooting. Very few large ducks have as yet come into the lake and these are difficult to kill. One sportsman who has camped on the lake for a month has only captured sixteen canvas back up to date. Cold weather is needed to send the ducks down from the north and the shooting season at best will be a short one.

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. Va., stuck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have to be amputated. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by Smith's pharmacy, opposite P. O., Kodak agents.

## ANARCHY THREATENS CHINA,

Unless Ministers Enter Soon Into Conference

AND ARRANGE FOR PEACE.

**Delay Causes Worry**—United States Minister to Be Told, to Hasten Matters—Boxers Receive Orders to Kill All Foreigners.

Washington, Oct. 29.—The government is making every effort to induce Minister Conger, and through him his colleagues of the diplomatic corps in Peking, to come to an agreement that will insure the initiation of peace negotiations between China and the powers. Considerable dissatisfaction is felt here over the delay in beginning the peace conference, and if the government has not already done so it is probable that Minister Conger will be made to understand that the failure to open up the negotiations is very displeasing to Washington authorities.

The official advices received in Washington concerning events in Peking indicate that the foreign ministers are more deeply engrossed in arranging a comprehensive punitive program than they are in removing the menace to the peace of the world which lies in the postponement of the negotiations with the Chinese plenipotentiaries. It is the opinion of the very highest officials of the government that, unless the ministers enter soon into formal conference with Li Hung Chang and Prince Ching, China will become involved in the throes of anarchy.

Men prominent in the official circle here hold that the Chinese situation has not passed the critical stage. They say that China is in a chaotic state. Everything concerning the future is uncertain, and the unruly element, realizing this, is ready to make more trouble. A speedy settlement of the existing difficulties, they hold, is the greatest assurance of peace. There is no violation of confidence in the statement that Minister Conger and his diplomatic colleagues are being criticised in government circles for giving too much attention to the matter of reprisals and not enough to the more important matter of beginning the negotiations for peace.

**Orders to Kill Foreigners.**  
London, Oct. 29.—The correspondent of the Morning Post at Peking, writing Oct. 20, says: "The Boxers declare that the provincial treasurer has ordered them to kill all foreigners. He allowed eleven Americans and four British to be massacred."

The St. Petersburg correspondent of the Daily Express claims to have authority for the statement that when peace is restored Russia will hand to its owners the railway from Tong Ku to Newchwang.

**Whole Mukden District Mined.**  
St. Petersburg, Oct. 29.—The Russian sappers who were employed to dig out and destroy the mines at Mukden, official dispatches say, found the whole district mined, and it was only the unexpected arrival of the Russians that prevented wholesale destruction. A special commission was appointed to investigate. The advices also say that the provincial treasurer escaped, and that the Chinese guerrillas had been looting extensively, their booty including the Manchoo throne, extensive libraries and colossal archaeological objects, all of great value.

**Young Man Murdered.**  
Brazil, Ind., Oct. 29.—The resort kept by Mrs. Harmon, on West Jackson street, was the scene of a murder at 2 o'clock this morning. Charles Reynolds, 19 years of age, and four other young men had been in the place. On leaving for home they heard a rock strike the door of the house, and stopped to await the outcome. Mrs. Harmon's husband, Samuel Harmon, came out of the house in his night clothing, with a shotgun in his hands, and fired at the boys, instantly killing Reynolds. Harmon was arrested and is now in jail, charged with felonious homicide. Harmon says he thought Reynolds and his companions were throwing the rocks.

**Hogs Attack a Child.**  
Wymore, Neb., Oct. 29.—While playing in her father's yard at Burchard, a small town east of here, the 3-year-old daughter of Frank Hart climbed over into a hog pen in which there were several large hogs, and before she was rescued the hogs had attacked her and so badly mangled her that she will die. Her arms, face, body, and lower limbs were so badly lacerated that it was difficult to recognize her. Her clothes were all torn from her body, and had not Robert Shear happened along and rescued her, she would have been devoured by the hogs.

**Unknown Man Shot and Killed.**  
St. Joseph, Mo., Oct. 29.—An unknown man was shot and killed at Fourth and Charles streets. The man who fired the shot escaped. The victim was a stranger in the city, fairly well dressed, about 30 years of age, five feet eight inches in height, and light complexioned. It is possible that robbery was the motive.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy for having put on the market such a wonderful medicine," says W. W. Massingill, of Beaumont, Texas. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by Smith's Pharmacy Kodak agents.

**Child Killed in an Elevator.**  
Chicago, Oct. 29.—When Mrs. Alice Hulbert, accompanied by her sister and two children, came to Chicago from the east yesterday morning she was happy at the thought of returning to her home in the west, but when she leaves for Fort Collins, Cal., this afternoon she will take with her the body of her 6-year-old son, Paul, whose life was crushed out in an elevator in the Monadnock building a few hours after her arrival.

## MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

## TRUSTS HELP LABOR.

Joseph Beifeld, the Chicago clothing manufacturer, gives a good illustration of a trust beneficial to wage earners.

The woolen trust, so called, is made up of twenty-six mills, which were purchased by one company and are now controlled by one set of officers with one general distributing center for all their productions.

Each of these mills formerly produced from ten to fifteen different kinds of woolsens. On account of the great variety of their product it used to be necessary to change the looms at frequent intervals.

Each mill now produces but one class of goods, thereby saving much time in operating. Weavers become more proficient in their work, producing not only a better quality but a larger quantity of cloth, thus reducing the cost of production. Hence the trust has been able to increase wages, as it has voluntarily done two different times, and at the same time cheapen prices to buyers. The trust is a benefit to all concerned because it produces goods to better advantage than was possible under the old system, and a large part of the advantage goes to the labor employed, and to the public.

Yet Bryan says all trusts are evil. He would ruin this one by taking the tariff protection away from it and give our woolen market back to Bradford, Eng., manufacturers, who flooded us with shoddy goods, made from the rags of Europe, when the Wilson bill was in force.

What is true of the woolen trust is equally true of a great many combinations of both capital and labor.

The Standard Oil Company, so much maligned and abused, has done more to develop the resources of the country, pays out more money and better wages for labor, accomplishes more for philanthropy and progress in a single year, than all of the kickers will accomplish in a life time. If you doubt it, take a trip down through the oil country, the most desolate, forsaken country on the surface east of the Missouri river, talk with the people about what they produce, and how they gain a livelihood, and they will tell you that the Standard Oil Company furnished the money to develop their oil fields, found a market for their product, gave employment to everybody who was willing to work, and made it possible for them to gain a competency.

These small farmers, and there are thousands of them scattered over hundreds of miles of territory, would never have produced a gallon of oil, without the aid of the Standard Oil Company or some other organization with plenty of money and plenty of nerve to undertake the work.

In the meantime the dear public has not been robbed; oil is cheaper to-day, and has been for years, than it would be if every man who owned an oil farm was attempting to cultivate it on his own account. But Mr. Rockefeller has grown rich and that is a crime, he ought to be compelled to plug up his oil wells and give some one else a chance.

Has anybody become poor on account of Mr. Rockefeller's success? Possibly a few competitors have been

compelled to go out of business. Why? Because they were unable to meet competition.

Who was benefited as the result? The users of oil.

Who was the benefactor? The Standard Oil Company.

Is the trust good or bad?

Ask Wm. Jennings Bryan and he will tell you that all trusts are bad except the little book trust that he controls over in Nebraska.

The Labor trust, that for thirty-six days in Pennsylvania has controlled the action of 137,000 men, causing them to lose by idleness \$7,000,000 in wages, is undoubtedly a good trust.

Why? Because it compelled by a combination the increase of wages demanded.

Could this have been done without united effort?

No, but all trusts are bad and congress should deal with them severely.

This question of trusts is about the most nonsensical issue that was ever sprung in a campaign by any party. It is just as natural for labor to combine for self-protection as it is for capital to combine for self-protection.

An all-wise Creator endowed the various kingdoms that He created with a faculty sometimes called instinct. The vegetable and animal kingdom recognize it as "Heaven's first law," and so far as possible the inhabitants of these kingdoms protect themselves, and not unfrequently by combination of effort. For many centuries, this same faculty was the dominant faculty in the realm of man, and peaceable possession was not disputed until William Jennings Bryan and his horde of enthusiastic shouters attempted to improve on the work of the Creator by abolishing the law of self-preservation and denouncing concentration of effort as a crime.

Mr. Bryan is a bright man, but he has undertaken too large a contract.

## HE KNOWS ABOUT HOGS

The Council Bluffs Nonpareil, edited by Howard W. Tilton, contains the following practical reason for a change of political faith.

A letter was received at republican state headquarters the other day from a democratic farmer living at a small town in southern Iowa, in which he said: "I have always been a democrat. I have voted the democratic ticket all my life until this year. No one around here knows it, but the fact is, I am going to vote for McKinley. I don't care to let my democratic friends know this just now, but I don't want to take any chances on changing the present conditions."

"The other day I sold my hogs for \$4.90 a hundred. Four years ago I sold them for \$3.25. I send you herewith \$5, a part of the difference on one hog. This is my contribution to the republican campaign fund. I believe the republican administration has had something to do with this change in the price of my produce."

"I do not pretend to know much about the tariff question, but I do know something about the price of hogs. I have also observed that all the promises and threats that Mr. Bryan made in 1896 have proved false, and have amounted to nothing. I hope McKinley will be elected. If he is, I will come out of the brush and let it be known that I am a republican."

The argument is very convincing, and the man has good sense enough to think more of his hogs and the prosperity that increased their value, than he does of a political creed that has nothing better to offer than a 16 to 1 dollar.

There are more independent people in the United States today than at any time in the history of the nation and it is due to the prosperity that results from a wise administration. A vote for McKinley says "We are satisfied; let the good work go on."

The silver nations of the world conduct but five per cent. of the business of the world. The United States is in the ninety-five per cent. column, and will remain there unless Bryan is elected.

Mr. Bohmrich seems to have disappeared from the map of the state. His party also seems to be disappearing from the political horizon.

Who is the democratic candidate for sheriff?

What possessed the Bryan party managers to send Mr. Stevenson to Wisconsin? They should send him south to a more congenial climate.

The man Burke who thought he wanted to bet \$10,000 on Cook county for Bryan was sorry that he spoke.

## MCKINLEY HAS CALLERS.

Gen. Wood sees the President on Official Business.

Canton, O., Oct. 29.—President McKinley entertained guests from Porto Rico and Cuba. Gov. Gen. Leonard Wood of Cuba arrived in the morning and was with the president the greater part of the day and evening. He left for the east at 10:50 p. m. Gov. Wood's mission was to talk over political affairs in Cuba. Just what was discussed he declined to say. When asked if he thought a resolution would be introduced in congress to annex Cuba, he said: "A man might just as well cut his throat, politically speaking, as to introduce any such resolution."

Another caller at the McKinley home was M. G. Brumbaugh, commissioner

of education in Porto Rico. He bore a personal and official message from Gov. Allen to the president. Discussing social conditions in Porto Rico, Mr. Brumbaugh said there was much improvement throughout the island now compared with what was found when the Americans took possession. Schools, he said, had been established wherever practicable. Buildings to accommodate fifty pupils were constructed and the first fifty children that presented themselves properly clothed were admitted to school privileges. The other children were put on the waiting list, which is three times as large as the number in the schools. Good roads; more schools and better courts, Mr. Brumbaugh says, are the pressing needs in Porto Rico.

It was implied by Gov. Wood and Mr. Brumbaugh that they came here at the invitation of the president. It is believed the president sought to secure fresh official facts to be used in his message to congress. Secretary and Mrs. Root left for the east. The president has promised to attend a reception of the Canton public school teachers Oct. 31, at the home of the superintendent.

## FOR ONE CUBAN DEPARTMENT.

Military Establishment in the Island May Be Simplified.

Washington, D. C., Oct. 29.—It is probable that upon the return of Secretary Root orders will be issued for the reorganization of the military establishment in Cuba. At present the island is divided into two departments, one of the west under Gen. Fitzhugh Lee and the other of the east under Col. S. M. Whiteside of the Tenth cavalry, Maj.-Gen. Leonard Wood, military governor, having jurisdiction over both. It is proposed to form one department to be directly under Gen. Wood, thus relieving Gen. Fitzhugh Lee and Col. Whiteside of their commands, and materially reducing the cost of maintaining the service. Gen. Lee will be given an assignment in the United States should he be relieved of his command in Cuba.

## JUSTICE TO TROOPS IN CHINA.

Paymaster Bates Recommends That They Get Extra-Pay Allowance.

Washington, D. C., Oct. 27.—Paymaster-General Bates reports to the secretary of war that during the year ending June 30, 1900, he has paid to the army, regular and volunteers, \$36,566,600; on the emergency fund "to disband the Cuban army," \$1,642,850. The paymaster-general calls particular attention to the 10 and 20 per cent extra pay allowance provided by congress for the troops serving in the island possessions and Alaska, which unfortunately deprives the troops serving in China from a share of this bonus, the distribution in the Chinese empire not having assumed a threatening aspect when this law was passed in the latter part of May. He recommends that this extra allowance be extended to officers and men serving in all countries beyond the limits of the United States proper.

## JAMES HESS IS A LEADER OF CROOKS

HE IS KNOWN TO THE POLICE AS  
"JANESVILLE TOMMY."

Said to Be Skilled in Safe Blowing—  
He and His Pals Said to Have  
Robbed the Fond du Lac Postoffice  
and the Clinton Bank—Three Times  
in Waupun.

The burglars who recently made a  
raid upon the new postoffice at Fond  
du Lac and who blew open and rifled  
the vaults of the bank of Clinton  
have been captured and are now under  
arrest says the Milwaukee Evening  
Wisconsin.

There are three of them, the gang  
being led by James Hess, known to the  
federal authorities and in police cir-  
cles generally as "Janesville Tommy,"  
a notorious crook and safe-blower,  
who has recently served three terms  
in Waupun, with the prospects of as  
many more staring him in the face  
before he secures his liberty again.  
The gang came to grief in the rob-  
bery of the postoffice at Footville,  
a small town near Janesville, and were  
gathered in by the officers of the lat-  
ter city. Yesterday they were turned  
over to Postoffice Inspector Bird.  
The inspector returned to Milwaukee  
this morning well satisfied that in the  
trio he not only has the men who  
robbed the postoffice at Footville, but  
the postoffice at Fond du Lac as well.  
Officers of the Clinton bank have also  
identified the men who were hanging  
around the bank the night before the  
safe was blown open.

In place of securing nothing for their  
trouble at Clinton, it develops, accord-  
ing to the inspector's story, that the  
gang got away with sixty-five pounds  
of coppers and nickels, there being  
between \$200 and \$300 in the pile. It  
develops that the gang were scared  
away before they were through with  
their work for they failed to take no-  
tice of \$2,000 worth of postage stamps  
in the vault of the bank while they  
made no attempt to break into the  
vault safe which contained a large  
sum of money.

From Clinton the robbers got direct  
to Fond du Lac. There is no doubt,  
the inspectors say, that the three are  
the ones who blew open the vault at  
the Fond du Lac office, the same method  
being used as in forcing the vault door  
at Clinton. At Fond du Lac also some-  
thing came up to scare the trio away  
before they were through with their  
work, for they had barely begun to rifle  
a big pile of registered letters, getting  
away only with the cash and the stamps  
of the stamp clerk, that had not been  
locked up in the steel vault chest.

At Footville, the trio secured \$53  
in cash, taking the amount from a reg-  
istered letter. It has been recovered.  
At the time of the arrest one of the  
men tried to eat up the bills. There  
were ten of them. The dose made  
him sick and he was obliged to give  
up.

Hess is accompanied by Thomas Riley  
and Thomas Dillon. Riley is an  
old-time offender, but Dillon, the in-  
spector says, is a new man in the busi-  
ness. Hess was born and brought up  
in Janesville. Jack Hess, a brother,  
the inspector said is now serving a  
term in the Janesville lock-up. Upon  
his release he is to be arrested, ac-  
cording to the inspector, for breaking  
into a freight car on the Milwau-  
kee road at Watertown.

## EXPERIENCED A WARM TIME

Under a Burning Oriental Sun, I Was  
Tenderly Cared For  
I first saw the light of day under  
a burning sun and was tenderly cared  
for until I became fully developed. Then  
I was cooped up in a bag and put in the  
hot hold of a ship bound for Boston,  
where the epizures gave me a hot roast.  
Their toast was: "Here's to good old  
coffee, drink her down." I've met a  
warm reception everywhere and no more  
pleasant one than at Grubb's. Call and  
seek me.

In the Circuit Court.  
There were three cases called and  
disposed of in the circuit court this  
morning. The case of A. H. Lurdie  
man vs. John W. Hogan was disconti-  
nued. In the action of Emma Grundy  
against A. P. Crossman for a confir-  
mation of receiver's report the court  
confirmed the report. Judgment was  
issued in the case of Herman Affeldt  
against Otto Jackl. The judgment  
was on a foreclosure in the sum of  
\$728, attorneys' fees \$30, and costs  
\$56.83. The judge excused the jurors  
from further duty until December 3.

You will miss it if you do not at-  
tend the masquerade, Thursday eve-  
ning, Nov. 1.

## DESTRUCTIVE FIRE IN A WAREHOUSE

BUILDING OWNED BY J. F. SPOON  
& CO. IS BURNED DOWN.

Elevator in Connection Containing Bar-  
ley, Oats and Corn Was Damaged  
and the Contents Ruined—Origin of  
the Fire Is a Mystery—Loss Will  
Reach About \$2,000.

Janesville had another destructive  
fire Saturday evening when the ware-  
house occupied by J. F. Spoon & Co.,  
176 North River street was destroyed.  
Shortly after eight o'clock fire was  
seen emerging from the warehouse  
and an alarm was turned in from Box  
14.

The fire had apparently started in  
the warehouse fronting on River street  
and when the fire department arrived  
the building was a mass of flames.  
The fire ran from the warehouse into  
the elevator and came out of the cup-  
ola, but was quickly put out.

The warehouse was almost totally  
destroyed but the damage to the ele-  
vator was chiefly to the cupola and  
roof. The elevator contained 1,500  
bushels of oats, a carload of barley,  
and a car of corn, while in the ware-  
house there was five tons of baled hay.  
One hundred barrels of flour, a car-  
load of baled shavings and straw  
were also in the warehouse. The con-  
tents of the elevator, while escaping  
the fire, were considerably damaged  
by water, there being about five feet  
of water in the elevator at the time  
that "fire-out" was sounded.

The origin of the fire is a mystery  
as there was no fire in the building  
near where it was supposed to have  
started. Frank A. Spoon, one of the  
proprietors, says that it started in the  
opposite side of the room from the  
gasoline engine and there had been  
no fire in that since five o'clock. He  
said that there have been quite a few  
tramps who have made it a habit to  
sleep in the building and he thinks  
one of them started the fire.

The building was owned by John R.  
Rexford of this city, and was rented  
by J. F. Spoon & Co. The loss is  
estimated at between \$1,600 and \$1,  
700, including \$800 on grain and feed,  
\$400 on flour and between \$400 and  
\$500 on machinery. The building is in-  
sured by Charles Cleland and the Cit-  
izens Mutual Insurance company.

## PRETTY WEDDING AT ST. PATRICK'S

Miss Catherine F. Dalton and John A.  
Webber, Both of This City, are  
Joined in Marriage.

A pretty morning wedding was cele-  
brated at St. Patrick's church at 5:30  
o'clock this morning, when Rev. E. M.  
McGinnity united in marriage Miss  
Catherine F. Dalton and John A. Web-  
ber, both of this city.

The bride was handsomely attired in  
a becoming traveling suit of tan colored  
brocade, and hat to match.

The bride couple were attended by  
Mrs. Fred Rau and Maurice A. Dalton,  
sister and brother of the bride, as brides-  
maid and best man. After the ceremony  
the bride's parents, where a sumptu-  
ous wedding breakfast was served,  
only the relatives and a few intimate  
friends being present.

The bride is the youngest daughter of  
Mr. and Mrs. Thomas Dalton of West  
Milwaukee street, and is an attractive  
young lady, whose lovable nature has  
made her popular among her many  
friends as well as the pride of the  
home circle.

The groom is the son of Mr. Andrew  
Webber of Johnstown, and is an en-  
ergetic young man, of excellent character  
and genial manner.

Mr. and Mrs. Webber left on the 10:40  
train for Milwaukee and Chicago, and  
on their return will make their home  
with the bride's parents for a short  
time. Mr. and Mrs. Webber were the  
recipients of many handsome presents,  
appropriate souvenirs of the event.

## WORKMEN COMMENCE HOTEL EXCAVATION

New Hotel Addition to the Grand  
Hotel Is Already Under  
Way.

Workmen have commenced excavating  
for the new three story addition that is  
to be erected by David Jeffris on West  
Milwaukee street adjoining the Grand  
Hotel on the east. Work will continue  
as long as the weather permits. The  
new addition will be of white brick and  
will contain two stories on Milwaukee  
street.

The dimensions of the new building  
will be forty-five feet wide by 120 feet  
deep. The two upper floors will be  
used by Landlord J. F. Sweeney who  
will then have thirty additional rooms to  
his hotel. The new addition will be a  
credit to Janesville and will do away  
with the one story frame structures that  
have been an eye sore to that section  
of the city for years.

## KEEP Y. M. C. A. OPEN ALL NIGHT

Such Will Be the State of Affairs on  
the Evening of Election,  
November 6.

The Janesville Y. M. C. A. building  
will not lock its doors on the night  
of Tuesday, November 6. For the  
first time in the history of the asso-  
ciation the building will be kept open  
all night. It is the intention to re-  
ceive the presidential returns there.  
The ladies of the Y. M. C. A. auxiliary  
will serve an oyster lunch.

Secretary Kline said today:  
"This will be the first time that  
the building has been kept open all  
night. There are many people in  
Janesville who will be more than pleas-  
ed at the action of the association as  
it will give them a good place to go."

## LABORERS ANXIOUS FOR COUNCIL MEET

Are Getting Tired of the Lazy Actions  
of Several of the City Al-  
dermen.

There is a scheduled for this eve-  
ning a regular meeting of the common  
council. But this is no sign that  
there will be a meeting. Several  
times during the past few months  
council meetings have been postponed  
on account of the lack of a quorum.

Laborers who work for the city  
others who have money coming are  
more than anxious that the city alder-  
men should get down to regular busi-  
ness regardless of outside attractions.

## TENEMENT HOUSE DESTROYED BY FIRE

FIERCE CONFLAGRATION ON  
THE WIXOM FARM.

Cruel Flames Made Short Work of a  
Well Built Farm Structure Sunday  
Afternoon—Contents Were Saved—  
—\$800 Insurance On the Build-  
ing.

Fire totally destroyed a tenement  
house Sunday afternoon on the farm  
of J. C. Wixom in the town of Harmo-  
mony. The flames caught from a de-  
fective chimney and were well under  
way when discovered.

The building which is a total loss  
is insured for \$800. The greater por-  
tion of the contents was saved. There  
was no insurance on any of the house-  
hold goods.

At the time of the fire a stiff wind  
was blowing and all efforts on the part  
of many farmers failed to check the  
flames.

It was only hard work that prevent-  
ed the other buildings from catching  
fire.

MOULTON GIVEN  
COSTLY GOLD WATCH

Well Known Railroad Man's Remem-  
bered—Trainmen on This Di-  
vision the Donors

True friendship on the part of the  
trainmen in the employ of the C. & N.  
W. R. R. company has resulted in the  
presentation of a costly gold watch to  
Fred R. Moulton of this city.

For a number of years Mr. Moulton  
acted as assistant of the Wisconsin  
division with headquarters in this  
city. It was while acting in this  
position that Mr. Moulton had under  
his charge the men who have now  
come forth and displayed their warm  
friendship. The gift is one that  
took Mr. Moulton by surprise and for  
years to come it will be a highly  
prized one by him.

Tomorrow will be the last day for  
registration, and all voters not yet reg-

wish to cast their votes. Voters can be  
registered either in person or by af-  
fidavit, though no one can place another's  
name on the register unless provided  
with the necessary affidavit.

Although the registration up to date  
is the largest in the history of the city,  
it is expected that the lists will be quite  
materially increased by tomorrow eve-  
ning, as special efforts are being made to  
have the name of every voter if possible  
on the rolls.

### Women Wonder Why

They are doomed to so much suffering. But are they doomed? Is not the suffering the result of conditions which under skillful treatment might be entirely cured? Thousands of women who had been great sufferers, have learned that suffering was unnecessary after using Dr. Pierce's Favorite Prescription. It heals diseases of the delicate womanly organs and banishes the headache, backache and other aches which are the consequence of these diseases.

"Favorite Prescription" is absolutely a temperance medicine in the strictest meaning of the term. It contains no alcohol and is free from opium, cocaine and all other narcotics.

"I wrote you for advice February 4th, 1896," writes Mrs. Loma Halstead, of Claremore, Cherokee Nat., Ind. "I was racking with pain from the back of my head down to my heels. Had hemorrhage for weeks at a time, and was unable to sit up for ten minutes at a time. You answered my letter, advised me to use your valuable medicine, viz., Dr. Pierce's Favorite Prescription, 'Golden Medical Discovery' and 'Pleasant Pellets,' also gave advice about injections, baths and diet. To my surprise, in four months from the time I began your treatment I was a well woman and have not had the backache since, and now I put in sixteen hours a day at hard work."

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

### LURED TO DEATH.

Assassin Waits in a Wood to Kill a Florist.

Chicago, Oct. 28.—With a bullet in his brain, his throat cut from ear to ear, his face hacked almost beyond recognition and one eye gouged out, Anton Lizi, a Bohemian florist, brother to the burgomaster of Prague, Bohemia, was found dead in a ditch in Clybourn pasture near Forty-third court and the north branch of the river. Twelve hours later Joseph Dolinski, a Polish florist of 319 Balmoral avenue, was arrested by detectives. When arrested Dolinski was literally reeking with blood, his undergarments being still wet and red, while his face and hands bore evidence of a terrible struggle. Mary Lizi, widow of the murdered man and sister-in-law of Dolinski, is also detained by the police, who believe that she had guilty knowledge of the crime. Dolinski declared he had struggled with highwaymen and denied knowledge of the crime.

### Church Wrecked by Explosion.

Austin, Ill., Oct. 28.—The interior of the First Presbyterian church here was wrecked and George W. Leitch, a missionary lecturer from Ceylon, was injured, perhaps fatally, by an explosion of acetylene stereopticon gas tanks last night. The accident occurred shortly after 8 o'clock, an hour before the audience for Mr. Leitch's lecture was expected to arrive. Only four persons were in the church at the time. The interior of the building was damaged to the extent of \$2,000, two large stained glass windows being blown into the street and a rose window of rare design and execution partly shattered. The organ and pews suffered from fire and flying fragments.

### Four Children Drowned.

Port Clinton, Ohio, Oct. 28.—A quadruple drowning occurred near Plaster bed, on Sandusky bay, eight miles east of here, this afternoon. The drowned are: Douglass Stark, aged 3 years; George Stark, aged 5 years; Alfred Stark, aged 8 years; Henry Stark, aged 12 years. They were the children of Wm. Stark. He and the children went for a boat ride this afternoon. On returning to shore the boat became fouled in a fish pond net and the oarsman could neither force the boat ahead or go back. The children became frightened, and, leaning over the side of the craft, it was capsized, resulting in the four deaths by drowning.

# ELECTION NOTICE.

To the Electors of Rock County:

Notice is hereby given that a general election is to be held in the several towns, wards and election precincts in the county of Rock, on the 6th day of November, 1900, at which the officers named below are to be chosen. The names of the candidate for each office to be voted for, whose nominations have been certified to at this office, are given opposite the title of the office and under the appropriate party or other designation, each in its proper column, and the questions submitted to a vote are stated below.

### INFORMATION TO VOTERS.

The following instructions are given for the information and guidance of voters. A voter upon entering the polling place and giving his name and residence, will receive a ballot from the ballot clerk which must have indorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. The voter if he wishes to vote for all the candidates nominated by any party, should make a cross mark X under the party designation printed at the top of the ballot in the square made for that purpose. A ballot so marked, and having no other mark, will become (be counted) for all the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased or a cross mark be placed in the square under the name or at any place in the space occupied by the name or names of candidates in another column, and will be counted for all the names written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark under the name of each candidate he desires to vote for, or at any place within the space in which the name is printed. If he wishes to vote for a person for a certain office whose name is not on the ballot, he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memorandum to assist the voter in marking his ballot can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed endorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same, to be chosen by the voter; and if he declares that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath in his discretion, as to such person's disability. The party designations and candidates for the different offices are as follows:

## DESERTER LEADS REBELS.

David Fagin Is General in the Filipino Army.

## ATTACK BY 400 INSURGENTS.

Capt. Beigler Drives Off the Enemy Killing More Than Seventy-Five—Fight Lasts Two Hours—Two Americans Killed—Commissions Work.

Manila, Oct. 29.—A civilian launch towing a barge loaded with merchandise near Arayat was attacked by a force of 150 insurgents under David Fagin, a deserter from the Twenty-fourth infantry. The American troops on hearing the firing turned out in force before the boat could be looted and captured.

Fagin, who holds the rank of general among the insurgents, has sworn special enmity toward his former company. Of the twenty men he captured a month ago seven have returned. One was killed in a fight, his body being horribly mutilated. Fagin sends messages to his former comrades threatening them with violence if they become his prisoners. It was Fagin's men captured Lieutenant Frederick W. Alstaetter, who is still a prisoner.

While scouting near Loco, a detachment of the Twentieth and Twenty-eighth regiments, under Captain Beigler, were attacked by 400 insurgents armed with rifles, under the command of a white man whose nationality is not known to the Americans. The insurgents for the most part were entrenched.

Scouting Detachments Attacked. After a heroic fight Captain Beigler drove off the enemy, killing more than seventy-five. The fight lasted for two hours. Captain Beigler and three privates were slightly wounded and two of the Americans were killed.

## Revising Customs Tariffs.

The Philippine commission has decided to compile the revised Philippine customs tariffs from its own investigations, assisted by the report of the army board. The result will be forwarded to the United States for publication and discussion among those interested in foreign commerce. When the details appear to be satisfactory and the draft has been approved by the secretary of war, the commission will promulgate it here as a law. The measure has taken on a new and international commercial interest, and the course of the commission is heartily commended here.

Use Dynamite on Saloon. Fort Wayne, Ind., Oct. 29.—The saloon of Comedery Hickman at Maysville was blown up by dynamite and the building and contents were completely wrecked. For two years the residents of Maysville prevented the establishment of a saloon in the place. A few months ago Hickman succeeded in eluding their vigilance and was given a license. The citizens took an appeal to the circuit court and the case was to have been heard today. Hickman has been running the saloon for the past two months pending the settlement of the case. No arrests have been made in connection with the explosion. Hickman says he will rebuild and fight the case in the courts.

## NICE BABY

All babies are "nice," to their mothers.

We all love children. Great big men, with hard hands, have soft hearts for helpless new-comers to earth with the smile of heaven fresh on their innocent faces. No man is too high or low, too proud or humble, too busy or idle, too good or bad, too great or small—except a few very small mean men—to throw up their hats at the sight of a plump little cherub; or to pity a thin one.

Plumpness and thinness are accidents. Nature is bountiful; parents want to be. Scott's emulsion of cod-liver oil corrects their mistakes.

We'll send you a little to try if you like. SCOTT & BOWNE, 400 Pearl Street, New York.

## Last Year's Coat :

Is probably too good to cast aside and yet it's rather shabby and soiled, and out of shape. Bring it in; let our cleaners and tailor's pressman get at it; you'll be surprised to find a neat, clean, smooth coat waiting in place of the rough-looking one you left. Better hurry; it's overcoat weather now.
